CUSTOM FABRICATION

CUSTOM ORDERS

Capitol specializes in custom ornamental iron fencing fabrication. We take extra steps to help you design and see the finished drawing before it goes to production. Only after the final drawing has been signed off, do we have our craftsmen start creating our customized gate and panels.

Finished Product

Quality Powder Coating for the ultimate in customer satisfaction

Powder coating, an important facet of Capitol Steel's quality in manufacturing approach, provides one of the most cost-effective, long-lasting and color-durable finishes available. It is highly resistant to chipping, scratching, fading and searing, with colors maintaining their brightness vibrancy over time. Powder coating contains no solvents, so it is environmentally friendly.

Your custom order can be powder coated a variety of colors.

Contact your Capitol Steel or Security Contractor Services representative for details.
